Extra Credit: No

I have two major difficulties in doing this homework. The first one is that it took me quite a long time to understand how Command Object pattern work and how this pattern is implemented in this homework, but once it is figured out, the logic is clear and it is not hard to understand. The second difficulty is to take care of the nitty-gritty detail of the UI. There are a lot of details to take care of and it is easy to neglect something.
